

# Microplate Readers

Microplate readers for fluorescence, absorbance, luminescence, TRF, HTRF<sup>®</sup>, fluorescence polarization, BRET and AlphaScreen<sup>®</sup>

## Mithras<sup>2</sup> LB 943 Monochromator Multimode Reader

multimode, multilabel, multidetection, multitechnology microplate reader with monochromators and filters

[Read more](#)

## Mithras LB 940 Multimode Microplate Reader

modular and reliable multimode, multilabel, multi-detection microplate reader with outstanding performance in all technologies

[Read more](#)

## TriStar<sup>2</sup> S LB 942 Monochromator Multimode Reader

modular monochromator multimode, multilabel, multi-detection microplate reader with superior performance and features

[Read more](#)

## LB 913 Apollo 11 ELISA Absorbance Reader

microplate absorbance reader

[Read more](#)

## TriStar<sup>2</sup> LB 942 Multidetection Microplate Reader

modular multimode, multilabel, multi-detection microplate reader with superior performance and features

[Read more](#)

## Centro XS<sup>3</sup> LB 960 Microplate Luminometer

microplate luminometer with extraordinary sensitivity for 96 and 384 well plates and up to 3 injectors

[Read more](#)

## Twinkle LB 970 Microplate Fluorometer

microplate top and bottom reading fluorometer

[Read more](#)

## Centro LB 960 Microplate Luminometer

a versatile, robust and sensitive microplate luminometer with up to 3 injectors and temperature control

[Read more](#)

## CentroPRO LB 962 Microplate Luminometer

basic microplate luminometer applicable for research and routine use

[Read more](#)

## CentroLIApc LB 962 Clinical Microplate Luminometer

easy-to-use microplate luminometer for clinical diagnostics and OEM partners

[Read more](#)
